

Supported Independent Living (SIL)

Are you caring for a loved one with early onset dementia who needs 24-hour specialised support?

St Louis on Sea is an exciting new private luxury residence on the absolute beachfront in Victor Harbor, offering an innovative choice for supported independent living. Our home has been carefully designed and developed for the needs of people living with early-onset dementia.

With 24x7 personalised care, St Louis provides a supportive, enabling and flexible environment with all the comforts and normal routines of life at home.

Why St Louis on Sea?

St Louis on Sea is a registered NDIS provider specialising in supporting people living with early onset dementia.

We embrace the Person Centred Active Supports model which considers each individual's background, interests and needs, offering personalised support designed to enable each participant to use their skills, be creative and find their own solutions.

We take a patient step-by-step approach that encourages engagement and promotes self-esteem. We ensure participants immediately feel a part of the community by encouraging purposeful and social involvement tailored to their capabilities, interests and skills.

Supported Independent Living participants staying at St Louis on Sea can enjoy one of only eight luxuriously appointed spacious furnished bedrooms, all with their own ensuites. They also have full access to three shared living rooms, a large open kitchen and the wonderful garden to enjoy the sea air and potter in.

What is Supported Independent Living (SIL)?

SIL involves in assisting and supporting participants to continue to live their lives as independently as possible, ensuring they are engaged in daily tasks and making their own choices about their day-to-day life. This can involve assistance with personal supports and household tasks such as cooking, cleaning or gardening.

We require a minimum two week respite stay initially to ensure that St Louis on Sea is the right place to meet participant's needs and goals for supported independent living.

Payment Options

Supported independent living fees are charged in accordance with NDIS Pricing Arrangements and Price Limits, based on the level of shared and individual support each participant needs. SIL can be funded (subject to eligibility) through your NDIS Plan. NDIS funding only covers costs for SIL supports; Participants will be charged additional expenses for rent and board.

Let Our Family Take Care of Yours

St Louis Aged Care is a South Australian family owned and operated company. We have been looking after the needs of older Australians for more than 76 years and are committed to helping people hold on to their independence and live their life to the fullest.

St Louis on Sea is the latest in the family's suite of facilities - adding to the boutique, extra service, Parkside Nursing Home, 'St Louis on Blyth' Retirement Units and St Louis Home Care Services in Adelaide, Adelaide Hills and Victor Harbor, all sharing a commitment to providing warmth, care and a trusted partnership.
